Where: 2105 Rayburn House Office Building, Washington, DC

RSVP: [lclnyuihrc@gmail.com](mailto:lclnyuihrc@gmail.com)

The eruption of the international food crisis, a series of damaging hurricanes, and the impact of the current global financial crisis have aggravated conditions in Haiti, leaving the people of Haiti more vulnerable than ever. Donor states and the international financial institutions will convene in Washington on April 14<sup>th</sup> to renew their partnership with the Government of Haiti and to pledge financial support. Join representatives from leading human rights and non-profit organizations at a public panel to discuss international assistance to Haiti. The groups—Partners In Health, the Center for Human Rights and Global Justice (CHRGJ), the Institute for Justice & Democracy in Haiti (IJDH), the Robert F. Kennedy Center for Justice and Human Rights (RFK Center), and Zanmi Lasante—will demonstrate that future international assistance must be empowering the Haitian government to provide basic government services to its citizens—a goal expressed at the 2004 donor conference that has yet to be realized.

The panelists will focus on the need for engagement and accountability mechanisms to better plan, implement and track internationally-funded projects in Haiti. The panelists will present lessons learned from past donor conferences and field experience, and recommendations about how to make future assistance to Haiti more effective and sustainable.
