A/GENERAL COUNSEL
WASHINGTON, D.C. 20505

To: D/NS
DDCIA
DCIA

N.B. The specific conditions of confinement listed in Att. A have been specifically approved in a recent memorandum to me from Steve Bradburg, Asst. AG (Acting), OLC + DOJ.

~~TOP SECRET~~

CTC: 1027(400)/2006

MEMORANDUM FOR: Director of the Central Intelligence Agency

FROM:

[REDACTED]
Chief, [REDACTED]
CIA CounterTerrorism Center

SUBJECT:

(TS/ Updated Guidelines on
Confinement Conditions for CIA Detainees

1. (TS/ [REDACTED] Action Requested: Your approval on the attached Updated Guidelines on Confinement Conditions for CIA Detainees.

2. (TS/ [REDACTED] Background: The attached guidelines govern the conditions of confinement for CIA High Value Detainees (HVDs) who are detained at a CIA Detention Facility. They have been updated from the previous guidelines, issued in 2003, to reflect the recent enactments of the Detainee Treatment Act and the Military Commissions Act of 2006. These guidelines offer broad coverage in recognition that environmental and other conditions will vary from case to case and location to location.

3. (TS/ [REDACTED] The CIA CounterTerrorism Center (CTC) remains responsible for ensuring that these standards for confinement conditions will be followed. Director/CTC shall ensure that at all times a specific Agency staff employee is designated as responsible for each detention facility.

~~TOP SECRET~~

~~TOP SECRET~~

SUBJECT: (TS) [redacted] Updated Guidelines on Confinement
Conditions for CIA Detainees

That individual will be responsible for ensuring that all Agency personnel operating at the CIA detention facility adhere to these guidelines.

4. (TS) [redacted] Recommendation: That you approve the attached Updated Guidelines on Confinement Conditions for CIA Detainees. It has been reviewed by [redacted] and CTC/LGL.

STANDARD CONDITIONS OF CIA DETENTION

(TS/ [REDACTED] CIA security needs require that the conditions of detention for all detainees held in CIA facilities include the following:

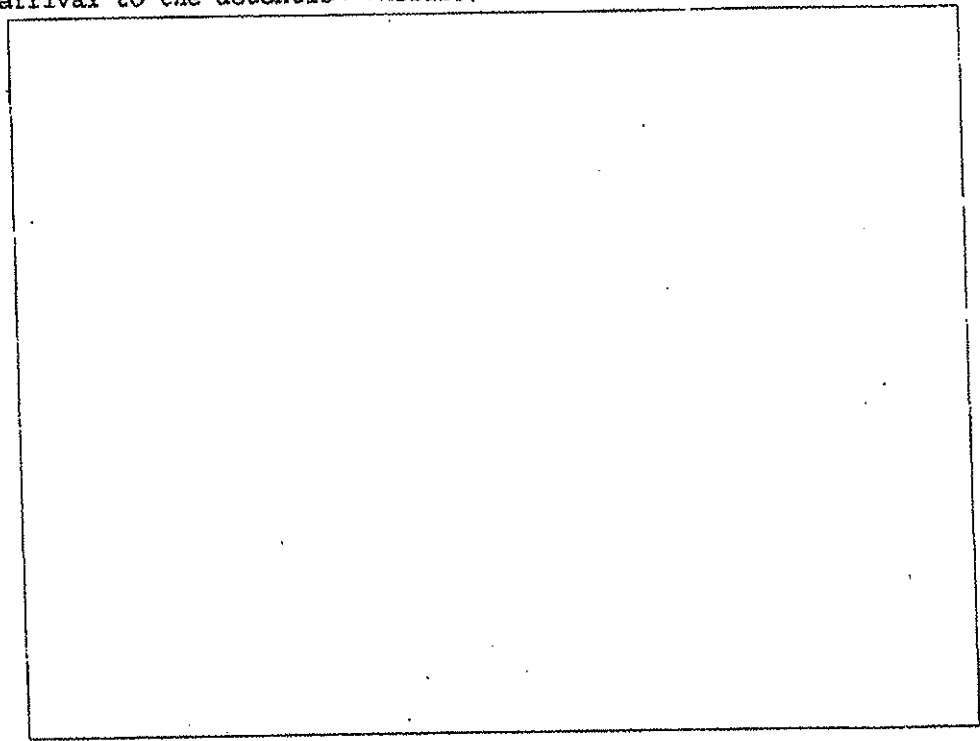

- [REDACTED]
- USE of White Noise
- Constant Light
- Shackling

[REDACTED]
~~TOP SECRET~~

~~TOP SECRET~~ [redacted]

(TS) ~~Shaving~~
[redacted]

[redacted] Application: A detainee is shaved (head and face) upon arrival to the detention facility

(TS) [redacted] White Noise:

-- Purpose: white noise is used for security purposes to mask sound and prevent communication among detainees.

[redacted]
~~TOP SECRET~~ [redacted]

~~TOP SECRET~~//

-- Application: White noise is kept at a decibel level less than 79 dB (calculated to avoid damage to detainees' hearing).

In general, sound in the dB 80-99 range is experienced as loud; above 100 dB as uncomfortably loud. OSHA guidelines require employers to establish a noise monitoring program when continuous noise is 85 dB or above. See 29 CFR 1910.95 App G.

Common reference points include garbage disposer (80 dB), cockpit of propeller aircraft (88 dB), shouted conversation (90 dB), motorcycles at 25 feet (90 dB), inside of subway car at 35 mph (95 dB), power mower (96 dB), chain saw (110 dB), and live rock band (114 dB).

there is no risk of permanent hearing loss for continuous, 8-hour-a-day exposures to sound at 82 dB

~~(TS)~~//

//MR) Constant Light:

~~(TS)~~//

//MR) Shackling:

-- Purpose: Shackling is used for security purposes.

~~TOP SECRET~~

~~TOP SECRET//~~

Restraints should not impede circulation or lead to permanent damage.

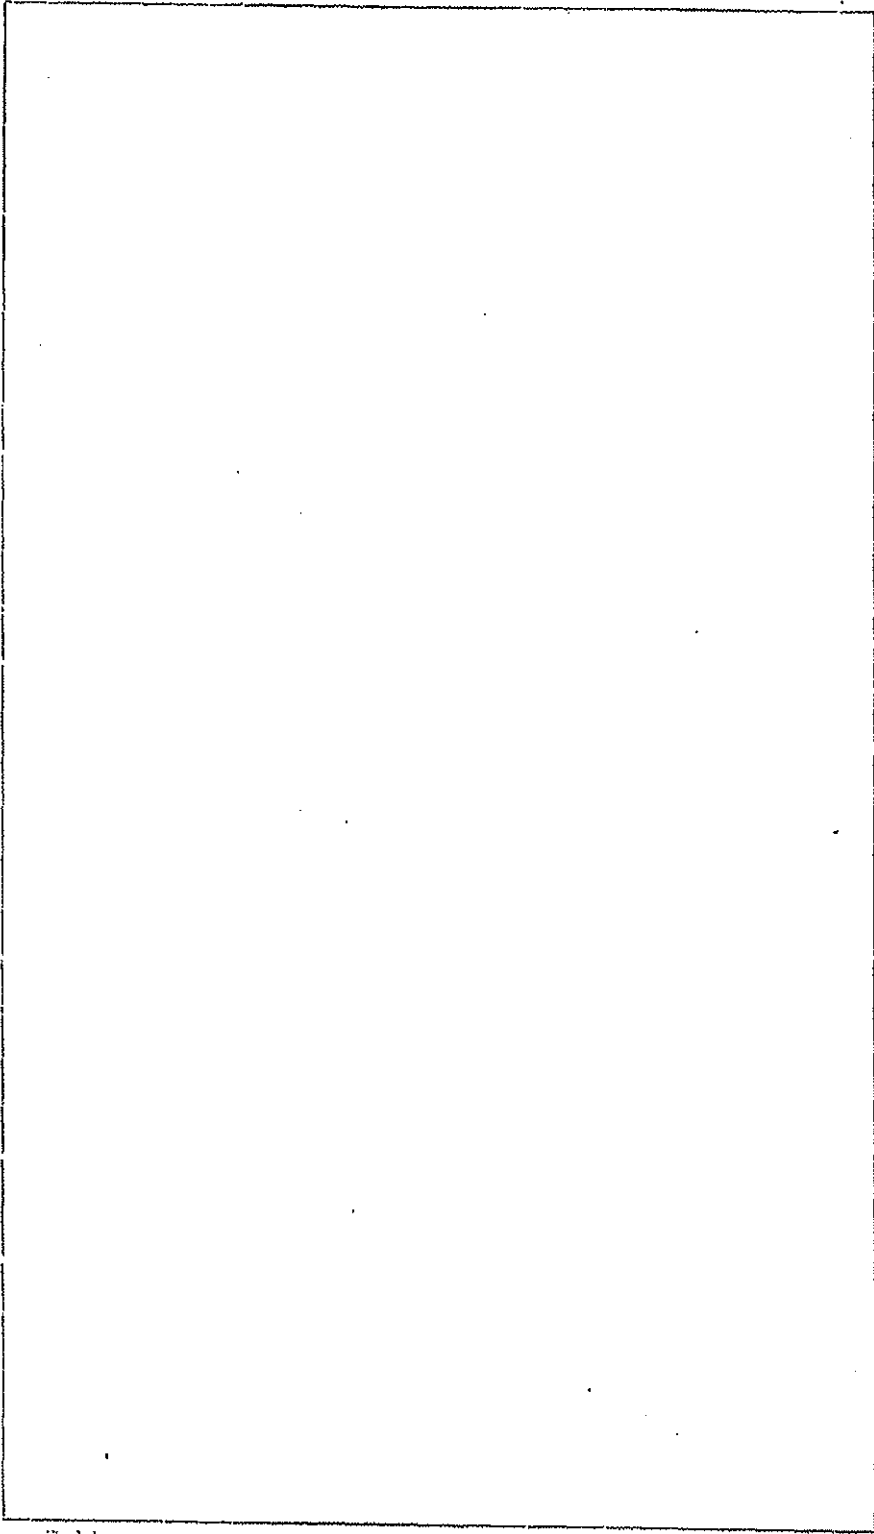

-- Application: Shackling is done in such a manner as to not restrict the flow of blood or cause any bodily injury.

Restraints should neither impede circulation nor lead to abrasions.
